

# CENTRALIZE ALL SCHEDULES INTO ONE CALENDAR

[www.osf-commerce.com](http://www.osf-commerce.com)

Leading companies are moving up the analytics maturity scale by investing in predictive and prescriptive intelligence tools to help them gain data-driven insights ensuring they are able to take the best next action. OSF Commerce, a **Salesforce Silver Partner** and winner of the [2016 Salesforce Partner Innovation in Retail Award](#), built OSF Community PLANNER, a **smart calendar solution** to help companies **improve organizational efficiency** and **achieve full visibility of scheduled Activities** – all in one screen.

OSF Community PLANNER is a **Lightning Component** scheduling solution for **Salesforce Partner Communities** that can be added to the Salesforce Community template with a simple **“drag and drop”** gesture. The product enhances the ability for businesses to better plan with their Partners and Community members by using organizational tools. They can assign activities within the Community and easily track their users’ progress. The component is built with the Napili template and works with **Community Builder**. OSF Community PLANNER is now **mobile responsive** and is the **first calendar for Salesforce Partner Communities** to offer mobile support.
